

ENERGY POLICY OF CHT AUSTRALIA

The Management of CHT Australia Pty Ltd is committed to establishing and maintaining an Energy management System (EnMS) according to the following guidelines:

- Management ensures that the type and extent of energy procurement and consumption are adequate for the requirements and further development of CHT Australia Pty Ltd.
- CHT Australia Pty Ltd is committed to continuously improving energy related performance and the EnMS;
- CHT Australia Pty Ltd complies with relevant legal and other requirements related to energy efficiency, energy use and energy consumption.
- We support the procurement of energy efficient products and services that impact energy performance, as well as design activities that consider energy performance improvement.
- To achieve energy objectives and targets, Management ensures the availability of information and necessary resources.
- This energy policy is part of the Corporate Policy. Sustainability is an essential part of CHT's "Strategy 2025", which is based on the United Nations Sustainable Development Goals (UNSDG)
- We take full responsibility for all our activities and we constantly act to minimise the environmental impact which results thereof.
- We pay strict attention to conserving resources, minimising emissions and waste in our energy policy and practices.
- We actively support initiatives with the aim of becoming climate neutral by 2050 and we take part in other voluntary initiatives/projects regarding sustainability.
- Management provides a yearly review of this policy and its adequacy regarding our values and company guidelines.
